Education

Ph.D. in Electrical and Computer Engineering Mar 2022 - Exp. Feb 2028
Seoul National University · Advisor Prof. Bohyung Han · Collaborator Prof. Kiseop Lee (Purdue)

B.S. in Statistics and Mathematics Mar 2015 - Aug 2021
Seoul National University · Summa Cum Laude · GPA 4.0/4.3

Seoul Science High School Mar 2012 - Feb 2015

Research Experience

Seoul National University, Ph.D. Candidate — Seoul, Korea
Mar 2022 - Present

- Developed an order-flow generator ensuring message validity against the current LOB.
- Reframed truncated signature inversion as recovering path distributions.
- Developed methods for efficient diffusion model training and sampling.

Adobe Research, Research Intern — Seattle, USA
Jun 2024 - Sep 2024

- Research on generative modeling of RGBA video

Selected Publications

ReLOBGen: Replayable Limit Order Book Message Generation Under review

Honors and Awards

Top Reviewer, NeurIPS 2026

Youlchon AI Star Scholarship, SNU AI Institute 2025
5–10 SNU AI researchers selected per year

Gold Prize, Samsung Humantech Paper Award 2025
For FIFO-Diffusion · 2,750 university-division entries

Presidential Science Scholarship, Korea Student Aid Foundation 2015 - 2020
Full scholarship with stipend · ~120 selected nationwide per year at university entry

Bronze Medal, Korean Mathematical Olympiad (High School Division) 2013

Skills

Programming: Python (PyTorch, JAX)

Languages: Korean (native), English (fluent)
